scope

Contemporary Research Topics

Scope: Contemporary Research Topics (Art & Design) Architecture Special Issue is peer-reviewed and published annually by **Scope: Contemporary Research Topics**, Otago Polytechnic Press.

The series *Scope (Art & Design)* aims to engage discussion on contemporary research in the visual arts and design. It is concerned with views and critical debates surrounding issues of practice, theory, history and their relationships as manifested through the visual and related arts and activities, such as sound, performance, curation, tactile and immersive environments, digital scapes and methodological considerations. Within Aotearoa/New Zealand and its Pacific neighbours as a backdrop, but not its only stage, *Scope (Art & Design)* seeks to address the matters which concern contemporary artists and arts enquirers in their environments of practice.

EBSCO Database: *Scope: Contemporary Research Topics (Art & Design)* is catalogued on the EBSCO Database in recognition of academic quality and alignment with international peer review processes.

An online version of the journal is available free at <https://thescope.org/journal/>

ISSN (for hardcopy version): 1177-5653;

ISSN (for online version): 1177-5661.
